

Participant 3-month impact survey questions

Insert course aim and objectives

Please rate the improvement in your confidence related to the course aim and objectives, since attending the training (Excellent, Good, Ok, Below Expectation, Poor):

At the end of the course you were asked to identify up to three ways you would use what you learned on the course in your work. Have you been able to apply these?

If yes:

Please provide up to three examples of how you have applied the learning in your work.

How do you intend to continue using your learning from the course?

If no:

What obstacles have there been to applying the learning in your work?

Can you identify anything which could have been done during the training to increase your ability to apply the learning?

What could the IL&D team do now to support the application of your learning?

All

Have you used the resources shared during/after the course?
